US Army Corps of Engineers - Rock Island District

## UMR-IWW Navigation Study 1994 Public Meetings

### Distribution Memorandum Accompanying the Reports

---

The following is the memorandum from COL Cox, Commander, Rock Island District, that accompanied the distribution of the summary documents for the 1994 UMR-IWW Navigation Study Public Information Meetings. That memorandum is in turn followed by the distribution list of who received the report, both internally to the Army Corps of Engineers and externally with members serving on various advisory and liason committees.

### Distribution Memorandum

November 15, 1995

Planning Division

Dear Committee Member:

The Rock Island District of the U.S. Army Corps of Engineers has enclosed a copy of the Memorandum for Record (MFR), dated November 13, 1995, subject: Upper Mississippi River - Illinois Waterway (UMR-IWW) System Navigation Study, Scoping, which includes the interim product entitled "Responses to Issues Raised at the Public and NEPA Scoping Meetings of November 1994." This package is associated with the ongoing UMR-IWW System Navigation Study.

The MFR captures the chronology of events and general issues associated with the scoping of the subject feasibility study. The interim product summarizes and addresses various issues raised during the course of the UMR-IWW System Navigation Study as presented by participants of the November 1994 public meetings and those parties providing input during the subsequent comment period.

Please note that this report is not a decision document. The Feasibility Report, which will be submitted for processing to our Headquarters Office in December 1999, is the decision document.

Should you have any questions, please telephone the study manager Mr. Dave Tipple of our Planning Division's Waterway Systems Branch at 309/794-5399, or you may write to our address above, ATTN: Planning Division (Dave Tipple).

Sincerely,

/s/  
Charles S. Cox  
Colonel, U.S. Army  
District Engineer

Enclosure
